Introduction

Inspecting toilet and bathroom items after installation is crucial for ensuring that everything functions correctly and safely. This checklist covers all key aspects from plumbing integrity to fixture stability, ensuring compliance with quality standards and safety regulations. Proper inspection helps avoid leaks, water damage, and other costly repairs. Use this interactive checklist to track progress, make notes, and export your findings as a PDF or Excel document with a unique QR code for verification.

How to use this checklist

1. Click the "Use this checklist" button to launch interactive mode. 2. Tick each item online as you complete it. 3. Add comments on individual items or the entire form for observations or issues. 4. Click Share or Download to download your completed checklist as PDF or Excel. 5. Scan the QR code in the exported report to verify authenticity.
